

AGH6600

6-in-1 Portable Gas Detector with built-in pump

01 PRODUCT OVERVIEW

The AGH6600 portable gas detector from AIYI Technologies is 6 in 1 gas detector with built-in pump. It can simultaneously detect the concentration of combustible gas, oxygen, carbon monoxide, hydrogen sulfide, carbon dioxide, and sulfur dioxide. When the concentration of the corresponding gas in the environment exceeds the safety limit, it automatically triggers an audible, visual, and vibration alarm to alert personnel.

02 PRODUCT FEATURES

1

with a built-in pump, suitable to most gas detection applications

2

sound, LED light, vibration, effective protection

3

antistatic PC+TPU

4

IP66, dust proof and water resistance

03 APPLICATION

- Petrochemical
- Gas & electricity
- Municipal Underground
- Metallurgy and Smelting
- Emergency Rescue
- Environmental Monitoring
- Marine Confined Spaces
- Laboratory

04 TECHNICAL SPECIFICATIONS

Parameter ▼	Specification ▼
Detection mode	Built-in Pump
Detection Gas	EX/02/C0/H2S/CO2/S02,custmizable
Classification	Exd ib IIC T4
IP	IP66
Dimension	177*76.5*40mm (H*W*D)
Display	LCD
Temperature	-20~60℃
Operating Time	≥10h
Charging port	TYPEC
Storage	Yes
Bluetooth	Optional
Temp. Monitoring	Yes
Certificate	CPA,EX

05 PATENTS
